

If you join Accenture you can make great ideas happen for some of the world's most dynamic companies. With broad global resources and deep technical know-how, we collaborate with clients to cultivate ideas and deliver results. Choose a career at Accenture and enjoy an innovative environment where challenging and interesting work is part of daily life.

Accenture's Client & Market career track drive profitable growth by developing market-relevant insights to increase market share or create new markets. They progress through required promotion into market-facing roles that have a direct impact on sales.

Accenture's Client Delivery & Operations career track drive delivery and capability excellence through the design, development and/or delivery of a solution, service, capability or offering. They grow into delivery-focused roles, and can progress within their current role, laterally or upward.

Key responsibilities may include (depending on which group to which you belong):

- Assisting in analysis and documentation of as-is capabilities about business processes, people, technology, etc.
- Assisting in development and testing of new business processes, capabilities, and, as appropriate, supporting technologies
- Developing deployment deliverables (communications, training, etc.)
- Performing application design activities (e.g., writing functional designs)
- Performing portions of technology architecture and infrastructure design activities
- Participating in performing portions of technology build, test and deployment activities

We are seeking highly motivated individuals who meet the following criteria:

- Eagerness to contribute in a team-oriented environment
- Ability to work creatively and analytically in a problem-solving environment
- Desire to work in an information systems environment
- Excellent English communication (written and oral) and interpersonal skills
- Must have Outstanding Masters or Bachelors Degree from discipline.
- Leadership roles in Co-curricular Activities in University will be an advantage.
- Involved in part-time work or Internship will be an advantage.

We offer a variety of formal and informal training programs at every level to help you acquire and build specialised skills faster. Learning takes place both on the job and through formal training conducted online, in the classroom, or in collaboration with team mates. The sheer variety of work we do, and the experience it offers, provide an unbeatable platform from which to build a career.
