Thai & Japanese Fusion
for Discontinuous Innovation.

WHO ARE WE?

Toyota Tsusho Electronics (Thailand) Co., Ltd. (TTET) was established in April 2005 as a joint venture between Toyota Tsusho Electronics Co., Ltd. and Toyota Tsusho Group, with the aim of developing Embedded Software for Automotive Applications.

Embedded Software for Automotive Applications calls for a high degree of reliability because of the high level of functionality and large scale applications.

As a member of Japanese car manufacturing companies, TTET continually trains its embedded software development engineers in topics such as programming languages, software development processes and quality assurance to ensure that the end product is of high quality, delivered on time and within cost. We also aim to contribute to the economy of Thailand and its industries.

OPPORTUNITY

Working here is more than work, as you will be continually developed to match the changing innovations of the automotive world. Opportunities are our keyword, and here we're offering you the chance to be a part of a booming market where opportunities are plentiful. Moreover, you will surely get the benefit & welfare from us. Work with TTET, a company aiming to be the No.1 Automotive Embedded Software Supplier.
